Subject index

Volume 31 (1995)

Acute mastoiditis; Cholesteatoma; Acute suppurative otitis media **31**, 147

Acute suppurative otitis media; Acute mastoiditis; Cholesteatoma **31**, 147

Airway obstruction; Craniofacial dysostosis; Midnasal stenosis; Obstructive apnea; Crouzon syndrome; Nasal obstruction **31**, 235

Airway obstruction; Relapsing polychondritis; Magnetic resonance imaging **31**, 101

Anaerobic bacteria; Chronic otitis media; Bacteria; β-Lactamase; Antimicrobial therapy **31**, 153

Aneurysmal bone cyst; Mandible; Bone lesion **31**, 247

Antibiotics; Peritonsillar abscess; Drainage; Tonsils; Tonsillectomy; Microbiology **31**, 129

Antimicrobial therapy; Chronic otitis media; Bacteria; β-Lactamase; Anaerobic bacteria **31**, 153

Auditory brainstem evoked response (ABR); Cornelia de Lange syndrome; Sensorineural hearing loss **31**, 137

Autosomal recessive inheritance; Genetic deafness; Genetic blindness; Retinitis pigmentosa; Carrier detection; Usher syndrome **31**, 159

Bacteria; Chronic otitis media; β-Lactamase; Anaerobic bacteria; Antimicrobial therapy **31**, 153

***Bacteroides* sp.**; Chronic suppurative otitis media; *Staphylococcus aureus*; β-Lactamase; Therapy **31**, 23

Bone lesion; Aneurysmal bone cyst; Mandible **31**, 247

Calculi; Salivary glands; Parotid; Submandibular; Sialadenitis; Children **31**, 35

Carrier detection; Genetic deafness; Genetic blindness; Retinitis pigmentosa; Autosomal recessive inheritance; Usher syndrome **31**, 159

Child; Voice; Subglottal pressure; Mean air flow rate; Glottal resistance; Glottal efficiency **31**, 183

Children; EMLA cream; Home application; Outpatient surgery; Compliance; Venipuncture **31**, 47

Children; Salivary glands; Parotid; Submandibular; Calculi; Sialadenitis **31**, 35

Children; Tonsillectomy and adenoidectomy; Diet **31**, 29

Cholesteatoma; Acute mastoiditis; Acute suppurative otitis media **31**, 147

Chronic otitis media; Bacteria; β-Lactamase; Anaerobic bacteria; Antimicrobial therapy **31**, 153

Chronic suppurative otitis media; *Bacteroides* sp.; *Staphylococcus aureus*; β-Lactamase; Therapy **31**, 23

Cleft larynx; Posterior cartilage graft **31**, 91

Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Cochlear implant; Incidence of profound deafness; Costs **31**, 221

Colobomas; Cryptophthalmos; Syndactyly; Microphthalmia **31**, 85

Communication; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Compliance; EMLA cream; Home application; Children; Outpatient surgery; Venipuncture **31**, 47

Cornelia de Lange syndrome; Auditory brainstem evoked response (ABR); Sensorineural hearing loss **31**, 137

Costs; Cochlear implant; Incidence of profound deafness **31**, 221

Craniofacial dysostosis; Midnasal stenosis; Airway obstruction; Obstructive apnea; Crouzon syndrome; Nasal obstruction **31**, 235

Crouzon syndrome; Craniofacial dysostosis; Midnasal stenosis; Airway obstruction; Obstructive apnea; Nasal obstruction **31**, 235

Cryptophthalmos; Syndactyly; Colobomas; Microphthalmia **31**, 85

Diathermy; Tonsillectomy; Postoperative pain **31**, 1

Diet; Tonsillectomyand adenoidectomy; Children **31**, 29

Denver Developmental Screening Test; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Drainage; Peritonsillar abscess; Recurrency; Tonsillectomy **3**, 43

Drainage; Peritonsillar abscess; Tonsils; Tonsillectomy; Microbiology; Antibiotics **31**, 129

Early Language Milestones Scale; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

EMLA cream; Home application; Children; Outpatient surgery; Compliance; Venipuncture **31**, 47

Expressive Communication Age; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Expressive language; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Genetic blindness; Genetic deafness; Retinitis pigmentosa; Carrier detection; Autosomal recessive inheritance; Usher syndrome **31**, 159

Genetic deafness; Genetic blindness; Retinitis pigmentosa; Carrier detection; Autosomal recessive inheritance; Usher syndrome **31**, 159

Glottal efficiency; Child; Voice; Subglottal pressure; Mean air flow rate; Glottal resistance **31**, 183

Glottal resistance; Child; Voice; Subglottal pressure; Mean air flow rate; Glottal efficiency **31**, 183

Graft integrity; Myringoplasty; Temporalis fascia **31**, 95

Hearing; Neonatal; Screening; Transient evoked otoacoustic emissions **31**, 175

Hoarseness of voice; Pachyonychia congenita; Jadassohn-Lewandowsky syndrome; Laryngeal obstruction; Stridor **31**, 109

Holoprosencephaly; Pyriform aperture stenosis; Neonate, Airway obstruction **31**, 263

Home application; EMLA cream; Children; Outpatient surgery; Compliance; Venipuncture **31**, 47

Incidence of profound deafness; Cochlear implant; Costs **31**, 221

Jadassohn-Lewandowsky syndrome; Pachyonychia congenita; Laryngeal obstruction; Hoarseness of voice; Stridor **31**, 109

Joint Committee on Infant Hearing; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

β-Lactamase; Chronic otitis media; Bacteria; Anaerobic bacteria; Antimicrobial therapy **31**, 153

β-Lactamase; Chronic suppurative otitis media; *Bacteroides* sp.; *Staphylococcus aureus*; Therapy **31**, 23

Language; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language delay; Language development; Language Development urvey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Language delay; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early

Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Language development; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Language Development Survey; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Language disorder; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; arly Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Laryngeal obstruction; Pachyonychia congenita; Jadassohn-Lewandowsky syndrome; Hoarseness of voice; Stridor **31**, 109

Laryngeal papilloma; Sexual abuse; Oral papilloma **31**, 77

Laryngeal web; Recurrent respiratory papillomatosis **31**, 259

Luminal obstruction; Tympanostomy tube **31**, 207

Magnetic resonance imaging; Relapsing polychondritis; Airway obstruction **31**, 101

Malignancy; Rhabdomyosarcoma; Sarcoma; Pediatric **31**, 15

Mandible; Aneurysmal bone cyst; Bone lesion **31**, 247

Mean air flow rate; Child; Voice; Subglottal pressure; Glottal resistance; Glottal efficiency **31**, 183

Microbiology; Peritonsillar abscess; Drainage; Tonsils; Tonsillectomy; Antibiotics **31**, 129

Microphthalmia; Cryptophthalmos; Syndactyly; Colobomas **31**, 85

Middle ear effusion; Secretory otitis media; Tympanogram **31**, 53

Midnasal stenosis; Craniofacial dysostosis; Airway obstruction; Obstructive apnea; Crouzon syndrome; Nasal obstruction **31**, 235

Myringoplasty; Temporalis fascia; Graft integrity **31**, 95

Nasal obstruction; Craniofacial dysostosis; Midnasal stenosis; Airway obstruction; Obstructive apnea; Crouzon syndrome **31**, 235

National Institute of Neurological Diseases and Strokes; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Com-

munication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Neonatal; Hearing; Screening; Transient evoked otoacoustic emissions **31**, 175

Neonate, Airway obstruction; Pyriform aperture stenosis; Holoprosencephaly **31**, 263

Obstructive apnea; Craniofacial dysostosis; Midnasal stenosis; Airway obstruction; Crouzon syndrome; Nasal obstruction **31**, 235

Oral papilloma; Sexual abuse; Laryngeal papilloma **31**, 77

Outpatient surgery; EMLA cream; Home application; Children; Compliance; Venipuncture **31**, 47

Pachyonychia congenita; Jadassohn-Lewandowsky syndrome; Laryngeal obstruction; Hoarseness of voice; Stridor **31**, 109

Parotid; Salivary glands; Submandibular; Calculi; Sialadenitis; Children **31**, 35

Pediatric; Rhabdomyosarcoma; Sarcoma; Malignancy **31**, 15

Pediatric screening; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Peritonsillar abscess; Drainage; Tonsils; Tonsilletomy; Microbiology; Antibiotics **31**, 129

Peritonsillar abscess; Recurrency; Drainage; Tonsillectomy **31**, 43

Post-intubation injury; Prolonged intubation; Preterm infants; Therapeutic reintubation **31**, 7

Post-operative diet; Tonsillectomy and adenoidectomy; Recovery **31**, 215

Posterior cartilage graft; Cleft larynx **31**, 91

Postoperative pain; Diathermy; Tonsillectomy **31**, 1

Preterm cildren; Voice onset time; Speech production **31**, 191

Preterm infants; Prolonged intubation; Post-intubation injury; Therapeutic reintubation **31**, 7

Prolonged intubation; Preterm infants; Post-intubation injury; Therapeutic reintubation **31**, 7

Public Law 99-457; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Pyriform aperture stenosis; Neonate, Airway obstruction; Holoprosencephaly **31**, 263

Receptive communication age; Clincal Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive anguage; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive-Expressive Emergent Language Scale;

Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Receptive-Expressive Emergent Language Scale; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive language; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Receptive lnguage; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Deveopment Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Screening; Sequential Inventory of Communication Development (SICD) **31**, 63

Recovery; Tonsillectomy and adenoidectomy; Post-operative diet **31**, 215

Recurrency; Peritonsillar abscess; Drainage; Tonsillectomy **31**, 43

Recurrent respiratory papillomatosis; Laryngeal web **31**, 259

Relapsing polychondritis; Magnetic resonance imaging; Airway obstruction **31**, 101

Retinitis pigmentosa; Genetic deafness; Genetic blindness; Carrier detection; Autosomal recessive inheritance; Usher syndrome **31**, 159

Rhabdomyosarcoma; Sarcoma; Pediatric; Malignancy **31**, 15

Salivary glands; Parotid; Submandibular; Calculi; Sialadenitis; Children **31**, 35

Sarcoma; Rhabdomyosarcoma; Pediatric; Malignancy **31**, 15

Screening; Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milstones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Sequential Inventory of Communication Development (SICD) **31**, 63

Screening; Neonatal; Hearing; Transient evoked otoacoustic emissions **31**, 175

Secretory otitis media; Tympanogram; Middle ear effusion **31**, 53

Sensorineural hearing loss; Cornelia de Lange syndrome; Auditory brainstem evoked response (ABR) **31**, 137

Sequential Inventory of Communication Development (SICD); Clinical Linguistic and Auditory Milestone Scale (CLAMS); Communication; Denver Developmental Screening Test; Early Language Milestones Scale; Expressive Communication Age; Expressive language; Joint Committee on Infant Hearing; Language; Language delay; Language development; Language Development Survey; Language disorder; National Institute of Neurological Diseases and Strokes; Pediatric screening; Public Law 99-457; Receptive communication age; Receptive-Expressive Emergent Language Scale; Receptive language; Screening **31**, 63

Sexual abuse; Laryngeal papilloma; Oral papilloma **31**, 77

Sialadenitis; Salivary glands; Parotid; Submandibular; Calculi; Children **31**, 35

Speech production; Voice onset time; Preterm children **31**, 191

Staphylococcus aureus; Chronic suppurative otitis media; *Bacteroides* sp.; β-Lactamase; Therapy **31**, 23

Stridor; Pachyonychia congenita; Jadassohn-Lewandowsky syndrome; Laryngeal obstruction; Hoarseness of voice **31**, 109

Subglottal pressure; Child; Voice; Mean air flow rate; Glottal resistance; Glottal efficiency **31**, 183

Submandibular; Salivary glands; Parotid; Calculi; Sialadenitis; Children **31**, 35

Syndactyly; Cryptophthalmos; Colobomas; Microphthalmia **31**, 85

Temporalis fascia; Myringoplasty; Graft integrity **31**, 95

Therapeutic reintubation; Prolonged intubation; Preterm infants; Post-intubation injury **31**, 7

Therapy; Chronic suppurative otitis media; *Bacteroides* sp.; *Staphylococcus aureus*; β-Lactamase **31**, 23

Tonsillectomy; Diathermy; Postoperative pain **31**, 1

Tonsillectomy; Peritonsillar abscess; Drainage; Tonsils; Microbiology; Antibiotics **31**, 129

Tonsillectomy; Peritonsillar abscess; Recurrency; Drainage **31**, 43

Tonsillectomy and adenoidectomy; Diet; Children **31**, 29

Tonsillectomy and adenoidectomy; Recovery; Post-operative diet **31**, 215

Tonsils; Peritonsillar abscess; Drainage; Tonsillectomy; Microbiology; Antibiotics **31**, 129
